The following screen explains our security question feature. This feature was included in our old system and helps us verify you are the only one who can access your account.

Security Features

Online Security Feature!

In order to make your online banking experience as secure as possible, a security feature detects any uncharacteristic or unusual behavior involving your account. If anything out of the ordinary is detected we will verify your identity.

How Does It Work?
If we detect any unusual or uncharacteristic activity, we will ask you to answer your security questions to make sure that it's really you. This will most likely be a very rare occurrence.

What Are The Next Steps?

- Answer and verify three security questions;
- Continue banking, with an even higher level of security!

Continue →

You can choose from a variety of questions and provide your own answers. Please note your answers are not case sensitive.

Verification Questions (required):

From now on we will monitor your use pattern and if we suspect it is not you we will ask you to answer a few verification questions. Please take a moment to select one question from each of the three drop-down menus. Answers are not case sensitive.

Question One: Which state did you first visit (outside the one you were born in)?

Answer: California

Question Two: What was the family name of your nearest neighbor in 2000?

Answer: Jones

Question Three: In which city was your first elementary school?

Answer: Burbank

The next screen will ask you to confirm your questions and answers to prevent any errors. If you would like to make any changes, you can click "Edit" to do so.

Settings Modification (optional):

If you would like to change the verification information you previously selected, please do so. It is not required that you change your information.

A notification screen will inform you your security questions have been collected.

Security Settings have been saved.

Thank you for completing the setup of your verification information. Again, we will only ask you to answer the questions if we detect any unusual or uncharacteristic activity. Click 'Continue' below to continue your session.

Finally, you will need to create a password reset question. If you ever forget your password and would like to retrieve it online, the system will ask you to answer your password reset question. Both the question and answer on this page are of your choosing. The credit union is unable to see this information. Once you are finished, click "Submit" and you will be automatically logged into your account.
